COMO
SECONDARY COLLEGE

COMO GOLF
ACADEMY

Como Secondary College provides a comprehensive and high quality program for talented students in Golf.

The Como Golf Academy is dedicated to producing highly skilled golfers and provides a comprehensive academic and golf program. Golf is the central option of study and is successfully incorporated into the students' mainstream school program throughout their secondary education.

Coaching is delivered by PGA Professionals from the adjoining Collier Park Golf Course, who have a wide variety of experience including coaching the Golf WA State Teams. Golf students have access to all golf facilities at Collier Park including a 27 hole golf course, grass driving range and short game facilities. The Golf Academy also uses state of the art analysis equipment including a Flightscope Launch monitor. The Golf Academy students complete golf specific fitness training within the world class strength and conditioning centre at Curtin University. Students also study the areas of nutrition, sports psychology and on course strategies and tactics.

All students who graduate from the golf program will receive a Certificate II & III in Sport & Recreation, a First Aid Certificate and a Community Golf Coaching award from the Australian Coaching Council. Students have the opportunity to enter the world of golf and pursue a variety of golf related careers including PGA Professional, coaching and golf operations.

The Como Golf Academy and its students frequently win or place highly in State and National titles including the School Sport WA School Teams Championship and the Australian School Teams Championship.

The Golf Specialist Program is designed for students who demonstrate developing golf playing ability. It is essential students can exhibit behaviours that reflect a strong work ethic, a willingness to learn new skills and teamwork. Golf demands excellent co-operation and adher-ence to complex strategies and tactics and therefore appropriate behaviour is expected at all times.
